Hypertension Causes, from Lifestyle to Genetics

Dietary Intake Factors

- Higher sodium intake
- Lower potassium intake
- Lower calcium/magnesium intake
- Lower diet quality (lower intake of fruits/vegetables, plant proteins, fiber)
- Alcohol intake

Non-Dietary Factors

- Genetics variants
- Overweight/obesity
- Lower physical activity/fitness
- Sleep disturbances (related to duration, quality, regularity and/or disordered breathing)
- Psychosocial stressors
- Air pollution
